

Sinclair Broadcasting's decision to force their stations to air an anti-Kerry documentary days before the election is an affront to our rights to have a clear notion of what is really happening in the forefront of the news, especially in these days of serious consequences.

Sinclair uses the public airwaves free of charge, and is obligated by law to serve the public interest. I want the truth, not propaganda. This is why I listen to the radio and it is what I expect from my radio stations.

I seriously doubt the good intentions of Sinclair Broadcasting's mandate to air this piece of smear. I think there should be serious consequences for the big media consolidations when they put out a blanket mandate to all of their stations to distract the public from the truth and lead their opinions through deceit. Please take this into consideration in renewing the licenses of Sinclair. They are not serving their public, and need to be stopped.

Thank you for your time.
